RE: All Américas 8° LatyCar –São Paulo –Brasil

Number of pages including this: 2

Dear Mr. Marculescu,

We would like to clarify misunderstandings about our ALL AMERICAS - LatyCar, to be celebrated in Sao Paulo city and Guarujá, next month between the 10th and 15th.

The organization, direction and administration, including all finances of this ALL AMERICAS belongs to our non profit Masters Association: APMN (the official Masters organizing association for the entire State of Sao Paulo).

APMN is incorporated into, and consequently, legally recognized by FAP (Federação Aquatica Paulista, a CBDA federation).

ABMN (Asosiação Brasileira Master de Natação) our only CBDA accredited national Masters ruling body, also recognizes APMN.

Both the above issued sanctions to LatyCar ALL AMERICAS in 2003 when APMN bid for the 8th LATyCAR. Those sanctions are in effect presently and can be viewed on the LatyCar site.

It is important to point out that both ABMN and FAP have been directly involved in the general direction and organization of the event since winning the bid in 2003.

In order to successfully carry out this international endeavor, our ALL AMERICAS 8^o LatyCar also has the financial assistance of the Ministry of Sports of the state of Sao Paulo.

The Ministry of Sao Paulo, the city itself, and the city of Guarujá island, all consider this a tourist and sports event and thus expect beneficial results for the region, and country, from the more than one thousand participants plus their friends and families.

It will be unfortunate for the Sao Paulo government to be made aware that due to a misinformation sent internationally from a foreign sports body, that their interests will be placed in jeopardy, especially when all sanctions and requirements have been fulfilled.

As a consideration to mention It to you, we want to inform FINA once again that the LatyCar organization (also a non-for-profit association) has no direct involvement in the Administration of finances or management of the championship and has only provided Masters expertise and the good-will it has gained since 1990. LatyCar is well respected in the Americas.

Our ALL AMERICAS 8^o LatyCar has been and is presently in compliance with our national requirements for the aquatic events.

We will appreciate your expedient correction of the recent misinformations communicated to all federations of the Americas by the president of ASUA/UANA, Mr. Orban Mendoza and thus alleviate concerns by all federations, associations, clubs and ultimately Masters athletes who should be your first and foremost concern at this specific moment.

Cordially,
